DESIGN/ LAYOUT REQUIREMENTS:

FILE PREPARATION

- Bleed is required for TigerBrite Designs.
- All files should be submitted as whole graphics
  (not divided by panels) on vendor provided templates.
  Request templates prior to designing.
- Documents should be sized at 100% or exact scale
  (if sized to scale please provide that information).
- Final file and image size should be no less than
  150 DPI at full print size or 300DPI at half scale.
- Review your files at 100% to assure that resolution quality
 is to your desired print quality.

FILE(s) UPLOAD

When you are ready to submit your files, please do so using our
Hightail uplink: **https://www.hightail.com/u/TigerDesignDep**
OR send a link using your preferred file transfer method.

WE HIGHLY RECOMMEND THAT YOU USE OUR SUPPLIED TEMPLATES FOR DESIGN.

Please contact your representative or visit our website at
